

Environmental Policy

Context and overview

Key details

- Policy prepared by: Sam Cordery
- Next review date: 01/12/2024

Background

Andusia Holdings Limited is committed to minimising the potentially harmful effects of waste management operations wherever and whenever possible.

We recognise the demands, to comply with appropriate legal and other requirements to which we subscribe, and for us to prevent pollution and conserve the environment on local, regional, and potentially global scales and for us to consider measures to adapt our operations to better our environmental performance.

To support this, Andusia Holdings Limited have developed a set of objectives to guide all our operations.

Through regular communication and training, employees are required to implement these objectives in their day-to-day work. We also encourage our customers and stakeholders to consider their own environmental impact, ensuring high standards are met throughout the entire supply chain.

The system also meets the requirements of BS EN ISO 9001 and 14001.

Policy

- Operate in accordance with international law and regulations
- Ensure employees are sufficiently trained to carry out their job role whilst
- Following environmental policy and encouraging best implementation practice

- Where possible, reduce levels of pollution, harmful emissions and other impacts relevant to the context of our business
- Always consider any environmental impact arising from our operations, office and travel
- Encourage those in our supply chain to consider the environmental impact within their own operations
- Review and monitor environmental performance to ensure objectives above are maintained

Governance and Assurance

Company policy is approved by the Group Board which is chaired by the Chief Executive. Each policy is reviewed at least annually to ensure that we respond to our clients, business strategy, legislation, and any standards or codes of practices determined by the market.
